

Purchasing Daylilies From Our Nursery For Shipping To Your Address...

When looking to place an order with us by mail or online, with direct shipping to your address, there are a few steps we recommend, even if you already have an idea of the cultivars you're looking to acquire.

The first step is to view or download our Current Catalog, which is posted on our website www.LastingDreamsDaylilies.com. We have a comprehensive listing of what we grow, with complete stats on most of the cultivars we have available; this will guide you to assure that any images you may have come across on the internet, contain the characteristics as described in our listings, along with our current price.

The next step is to view our current ***"Catalog Image Albums"*** posted on our Main Facebook Page; although we do repost those albums on our Group Page as well, on our Main Page they present in a thumbnail format which makes each album easier to view. All our images are taken by us, here in our Display Garden, and they represent how that specific flower bloom presents here in our region.

Oftentimes people will see pictures of daylily flowers, with the perception that they will look the same way in their garden, which is not always the case. When purchasing from our Nursery, you will know upfront what to expect from your selection, as our images reflect how that flower appears if you were standing in our Display Garden, looking at that daylily in person. Here is the link to our ***Catalog Albums, which are organized by alphabet:*** https://www.facebook.com/profile.php?id=100063981522931&sk=photos_albums

Your final step is to download your Order Form from our website; it is in PDF Format, so you can either print it out to mail or scan to email, or as an option use the Adobe "Fill & Sign" feature to complete the form on your device. Once received, we'll contact you to confirm availability, and to follow up with other details related to your order. No need to include any payment information, as we will invoice you with the final amount of your order, where you can pay securely from your home using credit or debit; however you can also include a money order with your mailed Order Form, if you wish to pay with cash.

When we ship plants, we strive to keep as much foliage as possible, while keeping any scapes intact if practical for shipping, so you can immediately enjoy bloom this season. While we ship from June through August, our ***"Peak Bloom Season" is in July,*** so the earlier we receive your order, the better chance we have of sending you a plant with minimal trimming.
